To close out the drafting of the manual a workshop was held with the following stakeholders in May 2022:

- Osvaldo Zamorano (Glencore Copper Asset Management – Metallurgical Assets)
- Nicolas Fortin (Horne-CCR)
- Yan Letourneau (Horne-CCR)
- Ikechukwu Iheanacho (CSA)
- Maximo Rojas (PASAR – *remote revision)*
- Nicholas Taylor (Glencore Copper commercial team - *remote revision)*
- Neale Laffin (Queensland Metals – Glencore Zinc)
- Robert Farrell (Murrin Murrin Operations – Glencore Nickel)
- Probin Konwar (Murrin Murrin Operations – Glencore Nickel)
- Sagar Karde (Murrin Murrin Operations – Glencore Nickel)

Supported by the AM Network Pty Ltd and Work Management Solutions Pty Ltd

Preface

The Asset Management Framework, Policy and Manuals are intended to provide leading Asset Management practices when applied and will be continually improved for the benefit of Glencore Copper.

The real value of sharing the knowledge gained from the use of these documents will come from continued discussion of the issues and rationale behind each document rather than by reading and interpreting them as individuals.

Readers are encouraged to consider these against our values around Safety, Responsibility, Simplicity, Integrity, Openness and Entrepreneurialism and how they reflect our Purpose – to responsibly source the commodities that advance everyday life. This document lays out the minimum standard for Glencore Copper and compliance to this manual will demonstrate a maturity value equal to Planned/Deployed (3) on the Glencore Copper Asset Management Maturity Scale.

1. Introduction

The Asset Management Policy and Manuals define how Glencore Copper manages the whole of life of an asset to ensure optimal value is extracted by ensuring that assets are capable of meeting business and stakeholder objectives.

Figure 1-1 describes the high-level Asset Management Framework, which enables Glencore Copper to deliver its Asset Management purpose and vision.

FIGURE 1-1 ASSET MANAGEMENT FRAMEWORK

2. Objectives

The objective of this manual for Personnel Management is to ensure:

- Recognising that human resources, including contractors, are a large percentage of total expenditure.
- Understanding people's competency, experience and behaviour impact significantly on commitments to Health, Safety, Environment and Community (HSEC) and operational performance.
- Ensuring asset owners provide Human Resources (HR) personnel with accurate and relevant inputs (i.e. behaviour, experience, competency) to deliver the right results.
- Enabling people development so operating, technical and maintenance tasks are completed safely and meet quality requirements.
- Using clear experience, competency and behavioural standards to deliver asset management performance.
- Integrated skills and competency matrix.
- Understanding that asset management relies heavily on people (internal and external) at all levels in the management structure and so a key competency is an ability to manage people.

Copyright © Glencore 2022

2.1 Accountabilities

Dedicated resources must be assigned and capabilities developed within each Operation to identify work to be able to deliver Personnel Management processes that enable effective delivery of the Asset Management objectives

Assign accountability for each or all the following:

- Human Resources Planning
- Personnel Selection
- Personnel Development
- Progress Reviews
- Recognition

2.2 Scope

Personnel Management process must be used within Operations to attract, develop and retain sufficient personnel with the appropriate competencies, experience and behaviours to deliver the present and future asset management strategies. The Scope of this manual is:

- Deploy knowledgeable and competent workforce at each site.
- To carry out efficient and safe activities.
- That systems are in place to ensure people achieve their desired potential and employee turnover is minimised.
- People are recognised for delivery of asset management performance.
- Contractors supply people that meet the site asset management standards.
- Accurate forecast and plan for the selection and development of people to meet asset management objectives.

This manual should be read in conjunction with:

- Element E01 Asset Management Leadership
- Element E03 Asset Management Planning
- Element E07 Operate for Reliability
- Element E10 Maintenance Contracting and Outsourcing
- Element E17 Continuous Improvement Management
- Strategic Asset Management Plan/s
- Asset Management Plan/s
- Glencore Corporate Recruiting Policy.

3. Definitions

Coaching - the job or activity of providing training for people or helping to prepare them for something.

Engagement – the process of encouraging people to be interested in the work of an organisation.

Feedforward – the practice of providing leaders with useful insight and help create a more positive work environment for the future while assisting employees in moving past barriers slowing down and negatively impacting their productivity and performance.

Human Resource Plan - the forecast of future human resource requirements of the organization and determining as to how the existing human resource capacity of the organisation can be utilized to fulfil these requirements.

Copyright © Glencore 2022

Mastery – great skilfulness and knowledge of a subject or activity.

Mentoring - is sharing knowledge, skills and life experience to guide another towards reaching their full potential; it is a journey of shared discovery.

Organisational Climate – refers to the way in which the underlying culture is manifested and expressed in current staff attitudes and behaviours.

Organisational Culture – set of values, beliefs, attitudes and assumptions which are thought to affect behaviour and performance over the longer term.

Organisation Structure – the way in which people within an organisation are organised and the groupings within which they have to work.

Training Needs Analysis (TNA) - the process in which the company identifies training and development needs of its employees so that they can do their job effectively. It involves a complete analysis of training needs required at various levels of the organisation.

Succession Plan – a sub-set of workforce planning and is the process whereby individuals are identified and/or developed to potentially fill senior leadership and management positions as well as other business critical positions.

Resource Capacity – level of staffing required to accomplish organisational objectives.

Resource Capability – an organisation's ability to achieve its objectives through the knowledge, skills, abilities and competence of its people.

4. Approach

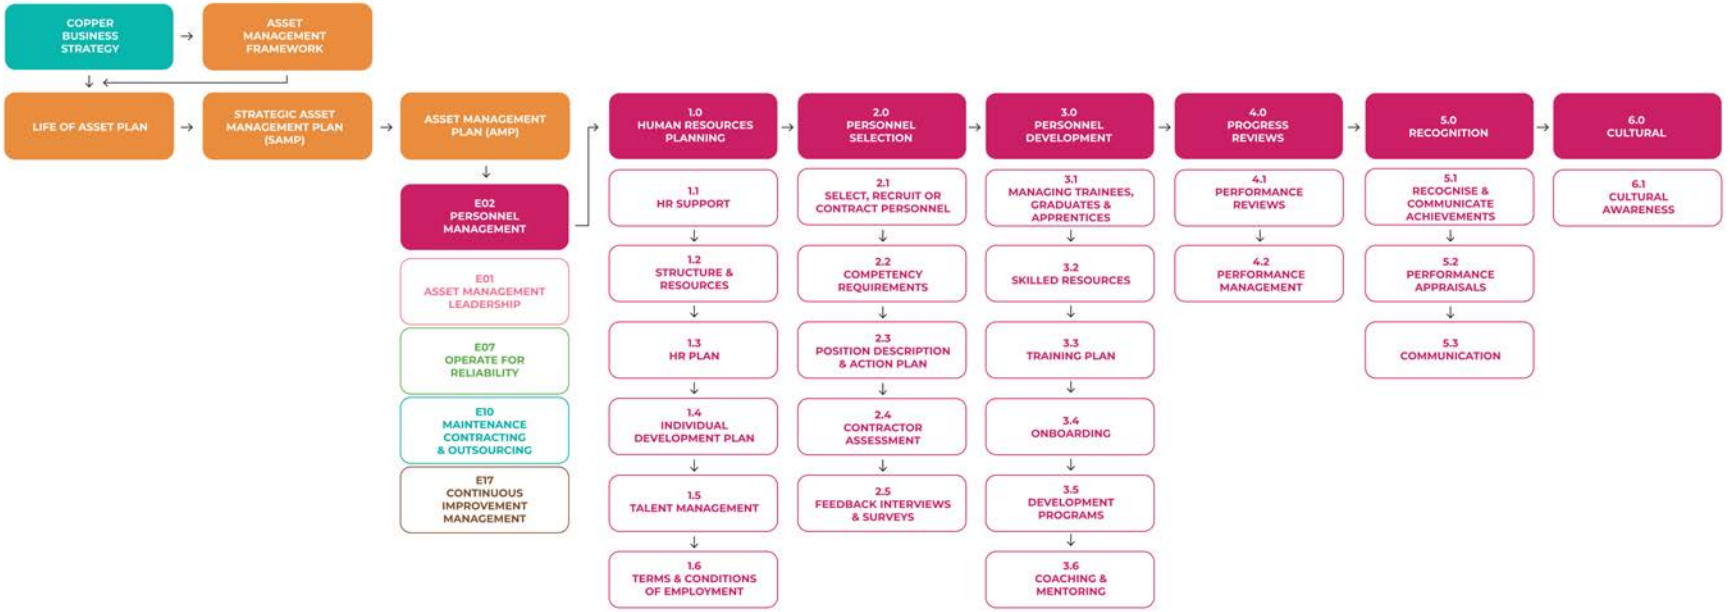

The approach for Personnel Management is described through:

- Process Flow and Descriptions at Sections 4.1 and 4.2 respectively - illustrates the key Personnel Management activities.
- Process RACI Matrix - indicates for each activity, the functions who are Responsible, Accountable, who are Consulted prior to final decision/action and those who are Informed of any outcomes and actions, refer to Section 4.3.

TABLE 4-1 PERSONNEL MANAGEMENT PROCESS DESCRIPTION

PROCESS STEP	DESCRIPTION
1.0 Human Resources Planning	**Structuring and resourcing the current and future asset management needs to consistently meet business objectives through an effective human resource plan.**
1.1 HR Support	Working with HR to define HR Standards, asset management Position Descriptions (PD's), recruitment needs and updating as business objectives change.
1.2 Structure and Resources	Refer to Element E01 Asset Management Leadership and Element E03 Asset Management Planning. The organisational structure evaluation conducted in Element E01 shall be confirmed on completion of Asset Management Plan/s (AMP). The AMP's provide information pertaining workload, resource and financial assets that are needed to deliver on the Asset Management Objectives. Ensure that there are enough people within the organisational structure and that they are organised and grouped in a manner that ensures that all Asset Management objectives can be met, within a lean and dynamic structure. Critical roles for business continuity are to be identified as part of this process. As business demands change then a review of the organisational structure and resource requirements shall be carried out including: • Structure effectiveness • Resource capacity and capability • Resource Qualifications • Roster and shift patterns • Contractor requirements • Equipment/Process changes • Technology changes.
1.3 Human Resources (HR) Plan	The HR Plan shall be updated as the demand and objectives of Glencore Copper change. Typical items that should be assessed include: • Resource needs • Recruitment Strategy • Selection Process • Training and Development • Pay scales and industry benchmarking • Performance Management • Talent Management.
1.4 Individual Development Plan	Training Needs Analysis (TNA) to be conducted, training and development programs to be included in the HR Plan and individual action plans in collaboration with HR. Training and development budgets are to be identified and submitted as part of the annual budgeting cycle.

Copyright © Glencore 2022

1.5 Talent Management	Key roles are to be identified and Succession Plans developed to ensure business continuity of resources, mitigate potential business gaps and provide clear career pathways for people within Glencore Copper. This will ensure: • Future leadership capability • Business direction and continuity • Retention of high-value talent • Retention of institutional knowledge • Cultural development.
1.6 Terms and Conditions of Employment Contract	Ensure all facets of the terms and conditions of the employment contract are considered such as accommodation and transportation. This pre-onboarding activity is to be considered as part of the upfront planning for hires.
2.0 Personnel Selection	**Selecting, recruiting or contracting asset management personnel to deliver asset management objectives and to sustain an effective work environment.**
2.1 Select, Recruit or Contract Personnel	Recruiting shall be aligned with Glencore HR Corporate Recruiting Policy, standards and procedures. Selection criteria is to be based on defined asset management competencies, experience and behaviours, that are aligned to the delivery of the asset management objectives and asset management position descriptions. The key principle in recruiting is that we will hire the most qualified and fit person to serve Glencore. We ensure that the best candidate is hired for a job, while protecting the company from being subject to corruption risks associated with hiring processes. All candidates must be assessed in a standard, fair and formal process that focuses on the assessment of the candidates' qualifications, best organisational fit and whether candidates are required from the local community or reside locally as opposed to Fly in Fly Out (FIFO). Contractor selection is to be based on experience, behaviours and abilities to deliver on Glencore Copper asset management objectives and activities. Refer to Element E10 Maintenance Contracting and Outsourcing manual for specific contractor selection, engagement and management requirements for maintenance contractors.
2.2 Competency Requirements	In consultation with HR and the training department, a skills matrix is to be developed for each Asset Management role, Training Needs Analysis (TNA) conducted and training programme developed for each person. Skills matrix to include both technical and soft skills. Refer to Position Description which provides details regarding the technical requirements of each role and individual development plans to enable the assessment of training needs for each individual.
2.3 Position Description and Action Plan	To perform well, employees need to know what is expected of them. Position Description provide a means by which employees are able to understand roles and responsibilities. Asset Management Position Descriptions (PD's) that align to Glencore Copper Asset Management objective and activities to be developed and skills matrix and

Copyright © Glencore 2022

	training program to be updated as business objectives change. PDs at a minimum should cover the following: • Where the position fits within the organisational structure. • Decision making criteria and authority requirements. • Purpose and Objective – why the position exists, how the role adds value, how the role links to the business plan. • Accountabilities – functions and activities that the role is accountable for • Reporting Relationships – the relationships which are critical for business success. The roles which will impact and shape performance of the position. • Qualifications – required qualifications, licenses or education. • Experience and Skill Set – the experience and knowledge that enable successful performance in the role. • Key Deliverables– activities and measures that the role is required to deliver. An action plan is to be developed for each employee. Refer to the Glencore Copper Action Plan process for details.
2.4 Contractor Assessment	Contractor assessment and selection is to be based on experience, behaviours and capability to deliver on Glencore Copper asset management objectives and activities. There also has to be a good cultural, values and moral fit, while delivering value for money goods and services. Refer to Element E10 Maintenance Contracting and Outsourcing Management for specific maintenance contractor assessment requirements.
2.5 Feedback Interviews and Surveys	The following feedback interviews and survey are to be conducted: • Onboarding interview – allows candidate to provide feedback regarding the onboarding process. • Cultural surveys – provides feedback regarding whether the actual culture within Glencore Copper aligns with the desired organisational culture. • Probation review – provides two-way feedback regarding the new hire probation period, Glencore Copper fit and transition to full time employee. • Turnover – provides details regarding turnover of staff in the first 6 months of employment. • Exit interview shall be conducted to: ○ Help improve staff retention – provides feedback as to why staff leave Glencore Copper and to enable strategies to be put in place to reduce turnover. ○ Enhance Glencore Copper's organisational culture and performance – open and honest exit interviews provide valuable information that can be used to improve Glencore Copper's organisational capability. ○ Align staff expectations with job roles, by uncovering differences between employees' expectation and their actual roles. Items to discuss in exit interviews could include: ○ Reasons for leaving ○ Role ○ Immediate manager ○ Team ○ Compensation ○ Communication ○ Health and Safety

Copyright © Glencore 2022

	○ Working Environment and Work Culture ○ Development and Career Management ○ You and Glencore Copper.
3.0 Personnel Development	**Developing people to meet current and future business needs and agreed individual development plans.**
3.1 Managing Trainees, Graduates and Apprentices	Managing, trainees, graduates and apprentices, through formal and informal programmes, in collaboration with HR. Programmes to consider could include: • Ambassadorship program to create links to schools, trade training organisations, universities to identify and attract future employees and to develop people. • Linking Job Descriptions with training needs. • Coaching and mentoring • Graduate program • Apprentice program • Professional development.
3.2 Skilled Resources	To ensure Glencore Copper has and can retain the necessary Asset Management skills, supervising and mentoring arrangements are to be put in place for personnel development such as the following guiding principles: • Ensure that employees are given the opportunity to gain experience within multiple plant areas, functions and disciplines, subject to operational requirements. • Promoting personnel – promoting from within provides employees with assurance that outstanding performance will be rewarded and ensures consistency regarding the implementation, monitoring and improvement of the Glencore Copper Asset Management Framework. Glencore Copper people, where applicable, are to be given the first opportunity to fill internal vacancies through internal promotion and transfers, utilising talent pipelines. When this cannot be achieved, an external recruitment process will be initiated. Refer to Process Step 1.5 Talent Management for details. • Short term secondment – this will ensure that people are provided with the opportunity to perform tasks not within their usual business activities, by temporary secondment into next level up role (subject to collective agreement). For example, Engineers seconded to manager/superintendent role to fill in for leave periods. • Ensuring that training and mentoring records are kept up to date and that progress is achieved according to those records. Training records are aligned to the training matrix and mentoring to be through line leadership to appropriately develop individuals, through an individual development plan or individual development plans. • As roles and responsibilities change, these changes are to be clearly communicated and action plans developed to ensure smooth and timely transition. • Professional employees such as Engineers should enhance their skills through Continuing Professional Development to maintain registration/s. Each site is responsible for setting out the specific requirements regarding development.

Copyright © Glencore 2022

3.3 Training Plan	Training plans are to be monitored to ensure that skills continue to be developed in line with Glencore Copper asset management objective and activities. Plans are to be updated as these objectives and activities change.
3.4 Onboarding	Onboarding is the process of integrating an employee with a company and its organisational culture, as well as providing the tools and information needed to become a productive member of the team. Onboarding considerations apply to new employees as well as current employees who transfer or are promoted (cross-boarding). Onboarding should be a strategic process that lasts the first year of employment, with the goals of engaging employees faster and retaining them longer. Follow HR Standards for onboarding with respect to administrative, organisational and community/social onboarding. Asset Management teams should consider how to integrate onboarding at the function level by: • **Departmental onboarding**, which helps guide employees on how things work in your area, in addition to helping them to assimilate to the asset management values, behaviours and norms. • **Technical onboarding**, where you help an employee understand what excellence means for asset management specifically and define clear goals that will help them get there. • **Social onboarding**, which helps new employees build relationships across working lines and feel that they are part of a larger community working together toward common goals.
3.5 Development Programs and Competencies	Personnel development programs to be developed such as: • Graduate Programs • Apprenticeships • Professional development • Frontline leadership for Managers, Superintendents, Engineers and Supervisors • High performance team training. Developing competencies to achieve mastery in current and future roles is essential for achieving and sustaining high-performance teams. Developing competencies shall be facilitated through the combination of publicly available courses, in-house courses and on the job training. Competencies are to include both hard and soft skills.
3.6 Coaching and Mentoring	Coaching and mentoring are major components of personnel management that should be included in an individual's performance plan and management.
4.0 Progress Reviews	**Reviewing and managing personnel performance and progress towards achieving asset management objectives.**
4.1 Performance Reviews	Follow the Glencore Copper Performance review process to conduct formal performance reviews for employees. Informal performance reviews should also be conducted, with feedforward and feedback provided to the employee and a Personal Development Plan developed and implemented. To ensure high level consistent performance, employees need to have relevant information about expected standards of performance and behaviour which should be laid out in the Personal Development Plan. Immediate managers should

Copyright © Glencore 2022

	provide their employees feedback where an employee meets and does not meet expected standards. Contractor performance shall be conducted to ensure: • Value for money • Resource Capacity and Resource Capability as defined in contract and scope of work/s • Project/work quality and delivery to scope • Safety performance. The Resource Plan is to be reviewed periodically to ensure: • Succession Plans are in place and managed accordingly • Competence requirements remain valid • Resource Capacity and Resource Capability remain valid • Position descriptions remain valid
4.2 Performance Management	Performance evaluation includes metrics on which the employee is measured and that Glencore Coppers values are considered. All Glencore Copper managers should have knowledge of the evaluation process and documentation that is to be populated and submitted as part of the process. Performance measures shall be assessed periodically in consultation with HR, position descriptions modified and action plans changed accordingly, should gaps be identified.
5.0 Recognition	**Recognising and communicating team and individual development to support the achievement of asset management objectives.**
5.1 Recognise and Communicate Achievement	Positive reinforcement and the recognition and communication of site, function, group, teams and individual performance is paramount for the success of Glencore Copper Business and Asset Management objectives. Formal and informal channels of communication should be used to recognise success and celebrated accordingly.
5.2 Performance Appraisals Aligned with HR	Performance appraisals shall be aligned with HR requirements for linking rewards to both business and asset management outcomes.
5.3 Communication	Formal and informal communication channels shall be developed so that teams and employees can receive timely and regular feedback regarding corporate, region, site and personal performance.
6.0 Culture	**Organisational Culture illustrates the accepted norms and values and traditional behaviour of a group. Culture influences management, decisions and all business functions from accounting to production.**
6.1 Cultural Awareness	Employees are to be aware of and understand the Glencore Copper organisational culture, which is related to Glencore Copper's values, visions, working styles, beliefs and habits. It is also related to behaviour, ethics, etiquette and more. Glencore Copper adopts, adapts and listens. Organisational Culture is to be assessed to consider current trends etc. with cultural awareness surveys conducted on a 2 yearly basis, including items such as:

Copyright © Glencore 2022

- Glencore's direction
- Values
- Team effectiveness
- Team leadership
- Individual engagement
- Investment in people
- Compliance and ethics
- Community.

4.2 Process RACI Description

The RACI matrix below in Table 4-2 addresses the high-level functional elements of the Personnel Management process. For the overall Asset Management RACI matrix, refer to the Asset Management Intranet page.

For the purpose of the RACI some functions have been amalgamated as follows:

- Management – includes managers below the level of General Manager
- Frontline – all roles below manager including Superintendent and Supervisor
- Support Function – includes Engineering, Technical Services, Supply, Reliability and Training.

Note: The HSE and Commercial Departments do not appear in this high-level RACI, although their involvement will be required from time to time dependent on the nature of the variance.

The codes used in the RACI analysis are defined as follows:

TABLE 4-2 RACI

R	**Responsible**	The "doer" – the individual(s) who will perform an activity or directs others to perform the activity.
A	Accountable	"The buck stops here" – the individual who ultimately "owns" the activity – there should only be one person.
C	Consulted	Person that needs to feedback and contribute to the activity.
I	Inform	The individual(s) who needs to be informed after a decision or action is taken if relevant. (via 1-way communication).

5. Deployment

The deployment of the Personnel Management approach across all business areas is through:

- Awareness presentation
- Position description alignment
- Competency assessment
- Training, coaching and mentoring.

Copyright © Glencore 2022

5.1 Awareness Presentation

This Manual is supported by a slide presentation and video to help facilitate communication and to raise awareness on how it contributes to the Asset Management Framework and business success.

5.2 Position Description Alignment

To effectively deploy this Manual, the essential process steps and activities need to be diligently mapped and assigned to approved positions within Glencore Copper.

The RACI matrix assists in the visualisation that everyone is working towards the same goal. It clarifies, not only the individual's responsibilities, but also that of others. It has proven to be an effective tool to quickly understand and close the gaps between current and desired practices and business process activities.

Position descriptions including KPIs need to be aligned to the RACI matrix and measures of success. This is the basis for ongoing performance reviews and the creation and execution of individual development plans.

5.3 Competency Assessment

This Manual is supported by an Asset Management competencies assessment process and each site is responsible for assessing Asset Management competencies to:

- Guide recruitment, selection, development and deployment of people in asset management roles across the company.
- Provide employees responsible for managing assets with feedback, development, coaching and recognition for their performance.
- Map, build and manage the asset management talent pool across the company.
- Identify strengths and development needs in asset management practitioners.

5.4 Training, Coaching and Mentoring

Coaching and mentoring are another way to assist employees improve their understanding of their role and to improve performance.

Coaching is generally about improving performance in the short term where mentoring is about achieving high performance and career aspirations over a longer term.

Coaching or mentoring requires addressing that a person is not currently up to the required level to perform their role as effectively and efficiently as they could. The build-up of skills to perform efficiently and effectively requires a large investment of time and cooperation.

Coaches and Mentors need to be carefully selected and must be committed for the long term to effect maximum success.

6. Improvement

The process to review and continually improve the approach and deployment for Personnel Management is scheduled Annually, or when there is a sudden change in the business strategic and operational requirements. As the organisation matures a longer review period could be considered.
